

Participating in Garden Club gives students the opportunity to grow their very own gardens. Participants get all required seeds and a Garden Club Booklet with their kits. **Prior experience with gardening isn't required – this kit can act as an introduction to gardening, and is a great way to try it out and learn more! This year the kits are free of charge.**

Kits Available:

Large/In Ground kits are suitable for classic gardens, flower beds or raised beds

Small/Container kits are great for small spaces, containers, pots, window boxes, tubs etc.

If no selection is made, a small/container kit will be provided

Novice	JK, SK & Grade 1	_____	In Ground	_____	Small/Container
Primary	Grades 2 to 4	_____	In Ground	_____	Small/Container
Juniors	Grades 5 to 8	_____	In Ground	_____	Small/Container
